Title: UI/UX check on the main page of the website

Prerequisite: Opened the main page of the site (without filters)

Steps:

1. Check that all interface elements are displayed correctly
2. Check if the navigation is easy to use

Expected result: All elements are displayed correctly, the site is easy to use

Actual result: All elements are displayed correctly. The interface is intuitive. However, some filters could be displayed in a more structured way, possibly by placing large text and buttons in a separate drop-down box

Status: Passed
